Strategic Resource Plan

The Strategic Resource Plan (SRP) describes the financial and non-financial resource requirements over a four-year period. The SRP is derived from the Annual Budget document that incorporates the 15-year Long Term Financial Plan. The financial projections are reviewed and updated on a yearly basis. This document is available from www.southgippsland.vic.gov.au.

Long Term Financial Strategies

1. Target consistent underlying surpluses that provide sufficient funds for both recurrent service level and asset renewal and upgrade requirements.
2. Target the Balance Sheet having at least a 1.25 to 1 underlying working capital ratio in the Long Term Financial Plan.
3. Transfers to discretionary reserves will only be included in the Annual Budget if matched by an equivalent budgeted underlying surplus in the Income Statement to preserve the accumulated surplus position of Council.
4. Material favourable budget variations realised at year's end in a given financial year will be allocated to a general reserve (unless required to finance projects deemed as 'unavoidable') that can be used as a funding source for future one off, unexpected or unavoidable costs.
5. Annual transfers of equivalent to 1.0% of rate income are made to the general reserve.
6. Annual transfers equivalent to the average interest earned on investments during the financial year are made to all reserves, Loan Reserve excepted.
7. Budgeted underlying cash at the end of each year shall be measured by referencing it against the underlying working capital ratio in the Long Term Financial Plan.
8. Service level funding gaps will be identified and classified as primary or secondary in nature to clearly distinguish the cash flow requirements of maintaining existing service levels (primary gaps) and for service level enhancements (secondary gaps).
9. A series of key financial performance indicators, with appropriate threshold targets, will be utilised to strategically analyse the financial integrity of the Plan. These include:
 - underlying working capital ratio – greater than 1.25
 - underlying result – greater than 0.0
 - financial sustainability indicator – greater than 95%
 - self-financing greater than 20%
 - indebtedness – less than 40%
 - total debt as a % of rate revenue – less than 60%
 - debt service costs as a % of total revenue – less 5%

Strategic Resource Plan

Long Term Financial Strategies

10. The amount of asset renewal funding required to maintain specified service levels as documented in asset management plans will be updated into the Long Term Financial Plan, subject to the available resource requirements, to ensure that the financial integrity of the plan is not compromised.
11. Any new, upgrade and expansion capital work proposals in the first four years of the Long Term Financial Plan must include a lifecycle cost evaluation that identifies the asset's construction, maintenance and operating cash flow requirements as well as the depreciation impact.
12. Capital income must only be utilised as a funding source for capital or 'one off' expenditure requirements.
13. Council consider borrowing for new capital projects only when consistent underlying operating surplus results are being achieved.
14. For borrowings to be considered, projects must have had a full lifecycle cost analysis undertaken, proving that future cash inflows will exceed the cash outlays, or alternatively that the additional costs are quantified in the Long Term Financial Plan and the integrity of the financial strategies are not compromised.
15. Where reasonably possible, fees and charges are increased by the same general rates increase until full cost recovery is achieved for direct service provision. Any fees that are not increased in line with the planned rate rise be clearly identified and documented for Council's consideration.
16. Any services that undergo service level review process which have non statutory fees and charges will have those fees and charges identified to reflect their level of community benefit which clearly articulates the basis for the fee or charge relative to the service being provided.
17. Council consider the most appropriate rating strategy to provide adequate funds to:
 - achieve sustainable underlying surpluses;
 - achieve sustainable cash flows; and
 - fund capital renewal projects;

in both the Annual Budget and Long Term Financial Plan to support defined service and infrastructure asset requirements.

The Financial Strategies are reviewed and updated on a yearly basis.

Strategic Resource Plan

The Minister for Local Government the Honourable Marlene Kairouz announced on 21 December 2017 that Victorian council rate increases will be capped to the rate of inflation, 2.25% for 2018/19. The cap is based on Melbourne CPI for the next financial year as forecast by the Victorian Treasury.

Financial Challenges

The Minister for Local Government the Honourable Adam Somyurek announced on 20 December 2018 that Victorian council rate increases will be capped to the rate of inflation, 2.50% for 2019/20 financial year. The cap is based on Melbourne CPI for the next financial year as forecast by the Victorian Treasury.

The rate rises in the forward years have also been conservatively set at 2.5% throughout the 15 years of the Long Term Financial Plan.

The key longer term financial strategic performance targets are to:

- Achieve consistent underlying operating surpluses.
- Produce strengthening underlying working capital and liquidity positions.
- Progressively increase funding for asset maintenance/capital renewal expenditure.
- Provide a reasonable degree of consistency and stability in the level of the rates burden.

These initiatives will enhance the longer term financial sustainability of Council to:

- Achieve the strategic objectives documented in the Council Plan.
- Address any infrastructure funding gap issues that may arise.
- Achieve long term financial sustainability, that being, having adequate level of funding for a defined level of services in current and forward budgets.

Financial Resource Requirements

The SRP has a very strong focus on short to medium term financial outcomes. Budgeted statements are documented further in this section.

Budgeting Methodology used for the Standard Financial Statements Strategic Resource Plan

The Budgeted Financial Statements are a subset of Council's 15 year Long Term Financial Plan. It has been prepared at the lowest accounting level within the Council's general ledger system.

At this level, certain accounts are coded for manual adjustment rather than broad percentage increases. For example, election expenses occur only once every four years. It is therefore not possible to simply multiply the previous year's base by a percentage and achieve the same outcomes as presented.

The Reserve Bank of Australia target rate for inflation (as measured in the CPI), is that it remains between 2 per cent and 3 per cent.

Strategic Resource Plan

Department of Treasury notes that CPI rose by 0.5 per cent in the December quarter and 2.0 per cent over the year. Inflation expectations remain subdued with market forecasts predicting the cash rate will remain unchanged up to the June quarter 2020.

The budget for the 2019/20 financial year incorporated a 2.0 per cent increase on operational expenditure. The inflation index in the Long Term Financial Plan for the years 2020/21 has been set at 2.25 per cent and then increases to 2.50 per cent from 2024/25 onwards.

The employee costs increments have been set at 2.50 per cent for 2019/20 through to 2023/24. The following years in the Long Term Financial Plan allow for an increase of 2.75 per cent. It also has factored in the increase in superannuation contributions from 9.5 per cent to 10.0 per cent to occur in 2021/22 and then to increase by 0.5 per cent each year thereafter until it reaches 12.0 per cent in 2025/26.

Fees and charges increases are generally modelled to increase by the same general rates increase until full cost recovery is achieved for direct service provision, where appropriate.

Rates

Council has elected to increase rates by the recommended cap amount of 2.5 per cent for the 2019/20 financial year and has conservatively modelled this increase throughout the 15 years of the Long Term Financial Plan.

The garbage and green waste charge will increase by 0.9 per cent for 2019/20.

Non-Financial Resources

The range of services undertaken by Council involves the abilities, efforts and competencies of 251.56 Equivalent Full Time (EFT) staff. The skill base of Council's workforce is diverse, with staff holding qualifications in areas such as aged care, civil engineering, accounting, health care, planning, building, and other fields.

There are also a vast number of volunteers that provide unpaid assistance across many services of Council.
