SERA Planning Provision Application (Proposed)
South Gippsland
A 'SERA' is:
a defined area with actual and/or potential extractive resources of strategic value. It has manageable environmental and planning constraints and is accessible to markets.
SOUTH GIPPSLAND
Nyora
BASS COAST
South Gippsland Hwy
The State Resource Overlay around existing quarries includes required buffer distances (250 metres).
Proposed State Resource Overlay (SRO1)
Proposed Special Use Zone - Extractive Industry (SUZ8)
Existing Extractive Industries Work Authorities - Approved
Existing identified area with potential resources (Extractive Industry Interest Area, 1996)
