Submission re Local Law No 2

In my submission Para105(a) is not clearly worded and is open to a couple of interpretations.

I suggest that the following wording is clearer:-

Any person including a Councillor who has been called to order by the Chair and fails to comply with the Chair's lawful direction is guilty of an offence.

109(a) Should also refer to payments online and in person.

109(b) is an incorrect statement

109c d & e incorrect to state disregard notice when these alternatives are provided for in the notice pursuant to The Infringements Act
