# 1 Legislative Requirements

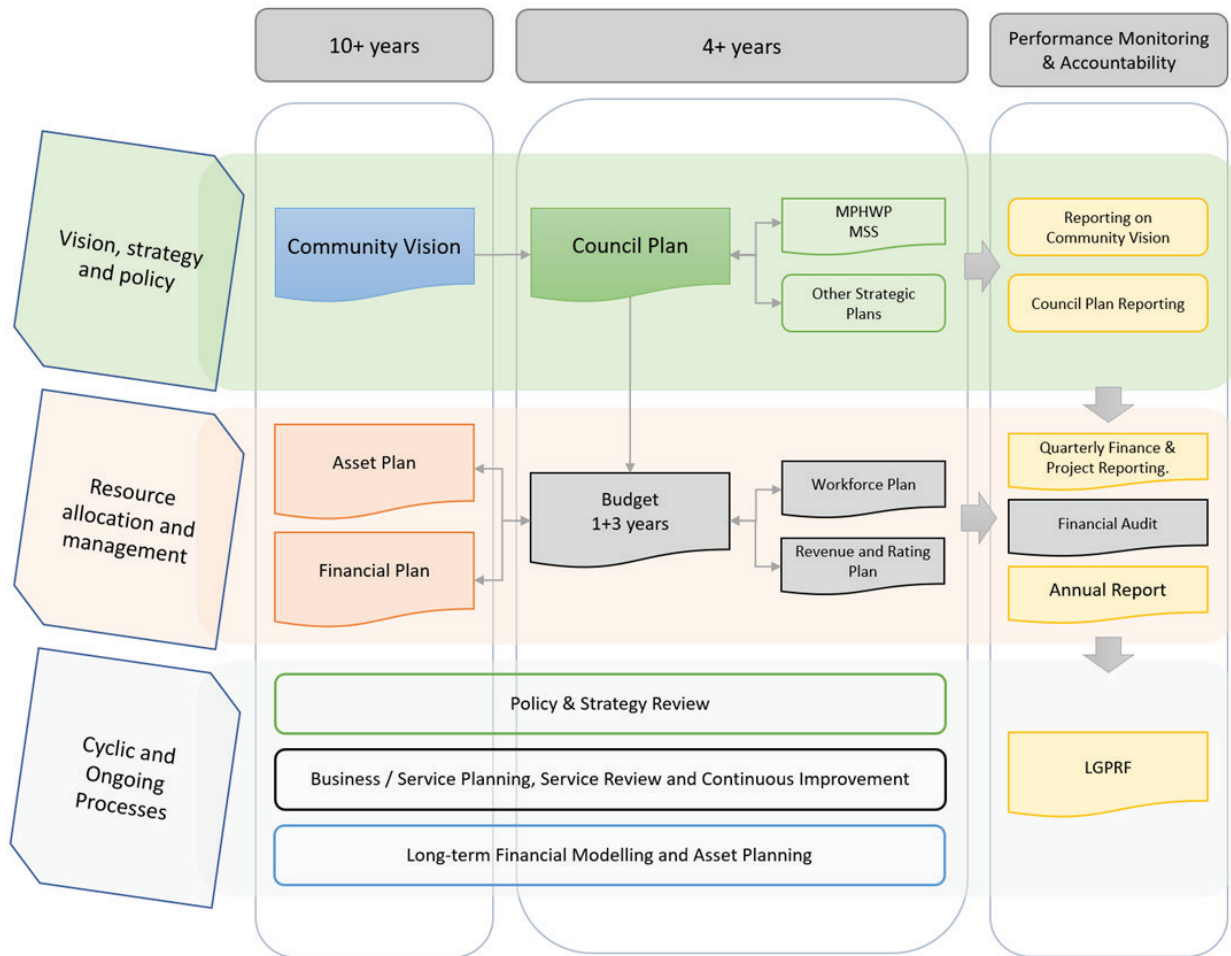

This section describes how the Financial Plan links to the achievement of the Community Vision and the Council Plan within the Integrated Strategic Planning & Reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term (Community Vision), medium term (Council Plan) and short term (Annual Budget) and then holding itself accountable (Annual Report).

It should be noted that The Local Government (South Gippsland Shire Council) Act 2019 provides for a general election of Councillors to be held October 2021, and adopt a Council Plan and Community Vision in the year following that election, and as such the forward look budgets in this document may change for the years following the election.

The following diagram provides an overview of the core legislated elements of an integrated strategic planning and reporting framework and outcomes.

The following figure demonstrates how each element might inform or be informed by other parts of the integrated framework.

## 1.1 Strategic Planning Principles

The Financial Plan provides a 10 year financially sustainable projection regarding how the actions of the Council Plan may be funded to achieve the Community Vision. The Financial Plan is developed in the context of the following strategic planning principles:

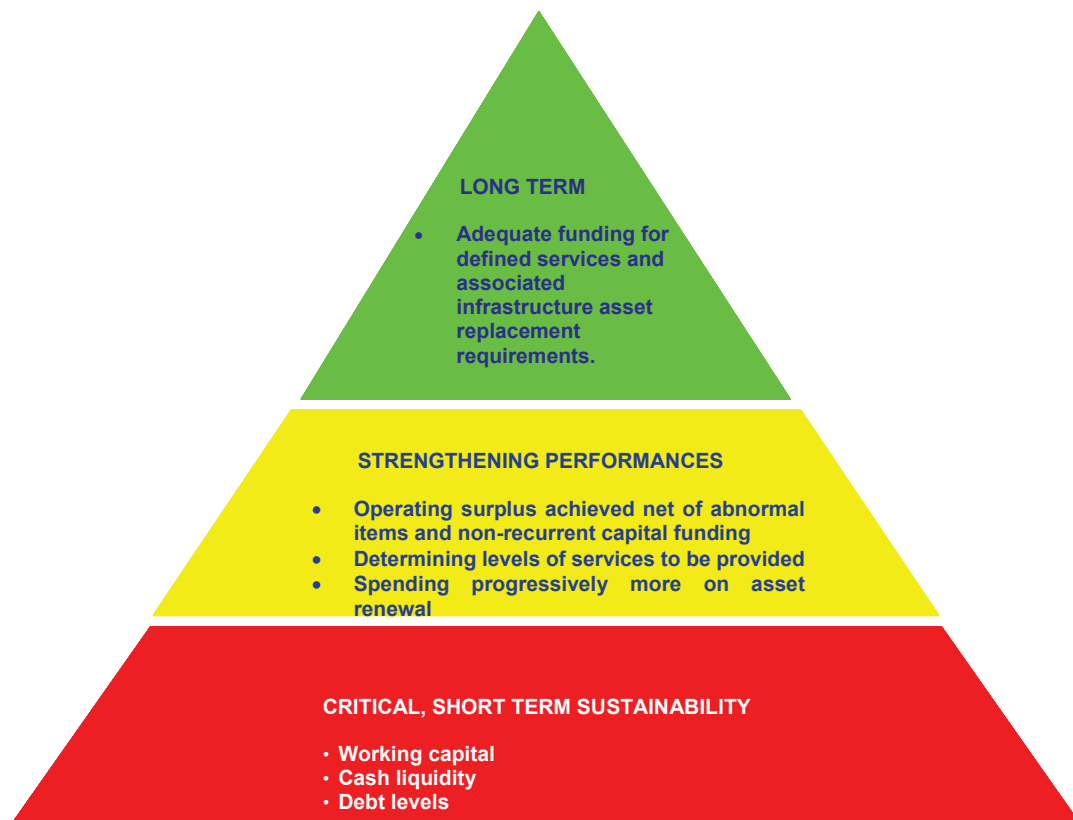

- a) Council has an integrated approach to planning, monitoring and performance reporting.
- b) Council financial plan addresses the Community Vision by funding the aspirations of the Council Plan. The Council Plan aspirations and actions are formulated in the context of the Community Vision.
- c) The Financial Plan statements articulate the 10-year financial resources necessary to implement the goals and aspirations of the Council Plan to achieve the Community Vision.
- d) Council's strategic planning principles identify and address the risks to effective implementation of the Financial Plan. The financial risks are included at section 1.2.2 below.
- e) The Financial Plan provides for the strategic planning principles of progress monitoring of progress and reviews to identify and adapt to changing circumstances.

## 1.2 Financial Management Principles

The Financial Plan demonstrates the following financial management principles:

- 1.2.1 Revenue, expenses, assets, liabilities, investments and financial transactions are managed in accordance with Council's financial policies and strategic plans.
- 1.2.2 Management of the following financial risks:
- a) the financial viability of the Council
  - b) the management of current and future liabilities of the Council. The estimated 10 year-liabilities are disclosed in section 3.2 Balance Sheet projections.
- 1.2.3 Financial policies and strategic plans are designed to provide financial stability and predictability to the community.
- 1.2.4 Council maintains accounts and records that explain its financial operations and financial position (refer section 3 Financial Statements)

For the purposes of this strategy, financial sustainability is defined in the below diagram, modelled essentially on a hierarchy of needs approach.

The bottom tier's financial objective 'Critical Short-Term Sustainability' relates to issues of liquidity, debt ratios and working capital, which underpin good business planning. In order for Council to operate successfully, it is essential that these 'fundamentals' are both understood and adhered to.

Second tier financial objectives focus on progressively improving financial outcomes to strengthen Council's financial position. It is vitally important to define and then consistently achieve planned operational and financial outcomes, before beginning to attempt to address the ultimate third tier goal of 'Long Term Financial Sustainability'. This is achieved when adequate funding is being provided in current and forward budgets for a defined level of services, including associated infrastructure asset requirements, which meets community needs and which they are prepared to pay for.

A financially sustainable council would be capable of:

- Providing and funding the service needs of its community;
- Meeting contingencies without needing to make radical changes to spending and / or revenue policies;
- Maintaining stability and equity in rating levels; and
- Preserving intergenerational equity.

When developing long term financial plans it is important that an assessment is made of the community's capacity and preparedness to pay for current and desired service expectations. This requires a consideration of the inherent structural characteristics of the community, including community income and population.

### 1.3 Engagement Principles

The Community Engagement Policy C60 (the Policy) outlines Council's approach to community engagement to assist with transparency, understanding and trust in Council's decision-making process. The Policy was adopted by Council at its meeting on 24 February 2021. Council has implemented the following consultation process to ensure due consideration and feedback is received from relevant stakeholders.

- a) Draft Financial Plan prepared by management;
- b) Proposed Financial Plan placed on public exhibition at the 16 April 2021 Council meeting for a period of 28 day and calling for public submissions;
- c) Community engagement is conducted using a variety of online and in person methods;
- d) Hearing of public submissions to the Financial Plan (2 June 2021);
- e) Draft Financial Plan, including any revisions, presented to (23 June 2021) Council meeting for adoption.

### 1.4 Service Performance Principles

Council services are designed to be purpose, targeted to community needs and value for money.

The service performance principles are listed below:

- a) Services are provided in an equitable manner and are responsive to the diverse needs of the community. The Council Plan is designed to identify the key services and projects to be delivered to the community. The Financial Plan provides the mechanism to demonstrate how the service aspirations within the Council Plan may be funded.
- b) Services are accessible to the relevant users within the community.
- c) Council provides quality services that provide value for money to the community. The Local Government Performance Reporting Framework (LGPRF) is designed to communicate council's performance regarding the provision of quality and efficient services.

- d) Council is developing a performance monitoring framework to continuously improve its service delivery standards.
- e) Council is developing a service delivery framework that considers and responds to community feedback and complaints regards service provision.

## 1.5 Asset Plan Integration

The Local Government Act 2020 requires Council to adopt its first Asset Plan by 30 June 2022 and has effect from 1 July 2022. The community must be consulted and involved through deliberative consultation processes. This will include establishing quality, cost, and provision standards as well as engagement on policy, strategy, and major initiatives. The Asset Plan provides transparency around Council's responsible stewardship of community assets.

## 2 Financial Plan Context

This section describes the context and external / internal environment and consideration in determining the 10-year financial projections and assumptions.

### 2.1 Assumptions to the financial plan statements

This section presents information regarding the assumptions to the Comprehensive Income Statement for the 10 years from 2021/22 to 2030/31. The assumptions comprise the annual escalations / movement for each line item of the Comprehensive Income Statement.

Escalation Factors % movement	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31
CPI	2.30%	2.30%	2.30%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%
Rates and charges	1.50%	2.00%	2.25%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%
Statutory fees and fines	2.30%	2.30%	2.30%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%
User fees	1.50%	2.00%	2.25%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%
Employee costs	2.50%	2.50%	2.50%	2.75%	2.75%	2.75%	2.75%	2.75%	2.75%	2.75%
Materials and services	2.30%	2.30%	2.30%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%
Other expenses	2.30%	2.30%	2.30%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%	2.50%

#### 2.1.1 Rates and charges

Base rate revenue will increase by 1.5% for the 2021/22 year, based on the state government rate cap, with estimated future annual increases of 2.0%, 2.25% and 2.50% per annum for the ensuing years of the Financial Plan.

The Victorian State Governments introduction of Recycling Victoria – A New Economy released in February 2020 aims to reform the state's waste and recycling systems over the next decade. Reported changes to the landfill levy rates were deferred from 2020/21 (due to COVID) until 2021/22. The rate payable for the Rural municipal landfill levy are increasing by 60%, from \$33.03 per tonne in 2021/22 to \$52.95. Waste charges are proposed to increase by 14.28% compared to 2020/21 levels in order to defray the total costs of waste management incurred across the municipal district.

**2.1.2 Statutory fees and fines**

The Financial Plan indexes statutory fees, set by legislation, according on the estimated annual rate of CPI. This is often a best-case scenario given some fees are outside of the control by Council and therefore may be subject to increases less than CPI.

**2.1.3 User fees**

Council determined user fees are budgeted to increase by 1.5% in the 2021/22 financial year in line with the rate cap. Total revenue from user fees is expected to increase by 16.8% for the 2021/22 year. The large increase is due to the assumption that restrictions applied as part of the pandemic in 2021/22 financial year will ease. Details of user fees for the 2021/22 budget year can be found in Council's schedule of Fees and Charges that is adopted in conjunction with the budget.

Revenue increases for the ensuing years are in line with growth assumptions in the state government rate cap.

**2.1.4 Grants**

Council currently receives grants for tied (specific purpose grants) and un-tied Financial Assistance grant funding received via the Victorian Local Government Grants Commission (VLGGC). Operating grants are expected to increase on an annual basis by approximately 2.0% after 2022/23.

**2.1.5 Contributions**

Council receives contributions from developers. These contributions represent funds to enable council to provide the necessary infrastructure and infrastructure improvements to accommodate development growth. The contributions are for specific purposes and often require Council to outlay funds for infrastructure works often before receipt of this income source. These contributions are statutory contributions and are transferred to a restricted reserve until utilised for a specific purpose through the capital works program or delivered as works in kind by developers.

**2.1.6 Other income**

Revenue from other income mainly comprises investment income plus the recovery income from a variety of sources and rental income received from the hire of Council buildings.

**2.1.7 Employee costs**

The increases allowed for under South Gippsland Shire Council Enterprise Agreement 2019 have been incorporated into the Financial Plan. Also included are the annual legislated increases to the employer superannuation guarantee payments of up to 12.0% in the 2025/26 financial year.

Employee costs (and FTE) reduce in the 2022/23 financial year due to a number of fixed term and grant funded positions ceasing at the end of 2021/22.

**2.1.8 Materials and services**

Material costs include items required for the maintenance and repairs of Council buildings, roads, drains and footpaths which are more governed by market forces based on availability than CPI. Other associated costs included under this category are utilities, materials and consumable items for a range of services. Council also utilises external expertise on a range of matters, including legal services and audit.

**2.1.9 Depreciation & amortisation**

Depreciation estimates have been based on the projected capital spending contained within this LTFS document.

### 2.1.10 Borrowing costs

Borrowing costs comprise the interest expense to service Council's loan portfolio that is described in Section 5.1 Borrowing Plan.

### 2.1.11 Other expenses

Other expenses include administration costs such as Councillor allowances, election costs, sponsorships, partnerships, community grants, lease expenditure, fire services property levy, audit costs and other costs associated with the day to day running of Council.

## 2.2 Financial Performance Indicators

The following table highlights Council's projected performance across a range of key financial performance indicators. ## 2.3 Borrowings

Council has borrowed \$3.6 million from Treasury Corporation Victoria (TCV) through the Community Sports Infrastructure loan scheme. Council has also been approved for \$10 million loan for the Korumburra Hub and streetscape from TCV through the Community Infrastructure Loan Scheme with a heavily discounted interest rate. Council draw down on the funds through an interest only payment during the build phase which then converts to a principal and interest payment upon project completion.

### 2.3.1 Future Borrowing Requirements

The following table highlights Council's projected loan balance, including new loans and loan repayments for the 10 years of the Financial Plan.

## 2.4 Reserves

### 2.4.1 Current Reserves

#### *Public Open Space Reserve*

- Purpose - The Open Space Reserve holds funds contributed by developers for works associated with developing and improved public open space and recreational facilities within Council. Funds are contributed in accordance with Section 18 of the Subdivision Act and transfers are restricted to the purpose of creating open space such as parks, playgrounds, pavilions and other such items where it is deemed that these works should occur at a later point than the initial development.
- Movements - transfers to the reserve (inflows) comprise contribution income from subdividers in lieu of the 5.0% Public Open Space requirement. Transfers from the reserve (outflows) are applied to fund Open Space capital projects on an annual basis.

#### *Development Contributions Reserve*

- Purpose – This reserve retains funds received from developers for infrastructure provision related to Council's Development Contributions Plans. Council has two (2) Development Contribution Plans with currently two reserves established to manage levy income contributed by developers. Development Contribution Plan reserves were introduced to manage proceeds from the recently adopted Precinct Structure Plans within the district A and district B within the municipality.
- Movements – Transfers from this reserve will be for nominated capital works for Development Infrastructure projects and Community Infrastructure projects. These funds are tied directly to the income received or cash funds refunded to developers for capital works completed directly by the developer.

*Plant Replacement Reserve*

- Purpose – This reserve is to set aside funds to replace Council's heavy plant and equipment at the end of the service life.
- Movements – Inflows to the reserve are mainly sourced from budget savings in depot maintenance and operations. Transfers from the reserve are aligned to Council's replacement schedule to fund plant acquisitions on an annual basis.

*Loan Repayment Reserve*

- Purpose – The Loan Repayment reserve is discretionary in nature and designed to hold funds for the repayment of interest only loans.
- Movements – The annual contributions are equal to the deemed principle repayment so sufficient funds will be available to fund the future repayment of interest only loans.

**2.4.2 Reserve Usage Projections**

The table below discloses the balance and annual movement for each reserve over the 10-year life of the Financial Plan. Total amount of reserves, for each year, is to align with the Statement of Changes in Equity. Restricted reserves are to be included to the disclosure of restricted cash assets.
